Hi,

After re-starting our Tomcat server, we ran into a this error screen trying to log in:

Unexpected Error

Error message: ConnectionCallback; uncategorized SQLException for SQL []; SQL state **S1000**; error code **72**; out of memory; nested exception is java.sql.SQLException: out of memory

Show stacktrace

```

at org.apache.tomcat.util.threads.ThreadPool
$ControlRunnable.run(ThreadPool.java:684)
at java.lang.Thread.run(Thread.java:595)
```

I've since increased the memory available to Tomcat to 1G.

We are running TC 1.2

Any idea on how to fix this?

Thanks,

HSQL Out of memory exception

Scott

Seems like it is a HSQL corruption...I'm now moving to MySQL!
