

Intellisense for Enum-assignments and...

Uwe Keim 23 posts since

Apr 2, 2007

As discussed last year here: <http://www.intelij.net/forums/thread.jspa?messageID=5176580>

I want to bring up that thread again, since it hinders me to convince more people to switch to ReSharper who are used to the VS.NET IntelliSense.

So my question: Any chance/timeline whether/when the ReSharper IntelliSense will behave more like VS.NET IntelliSense when it comes to automatically providing IntelliSense when dealing with Enum assignments and Enum parameters?

Thanks

Uwe

Hello,

We appreciate your feedback. The corresponding JIRA request has been created,

and you are welcome to monitor its status at <http://www.jetbrains.net/jira/browse/RSRP-61100>.

You may want to check our request tracking policy here: <http://www.jetbrains.net/confluence/display/ReSharper/ReSharperIssueTracker>

Intellisense for Enum-assignments and...

Best regards,

- Development Team.
