

[ANN] Spell Checker 0.3.1

Alexey Efimov 1,410 posts since

Aug 21, 2002

Hello,

We just uploaded new version to repository. In this version we added smart word spelling. Now words will check only from correct dictionary and will not highlight words, which have no dictionaries. For example, Russian word can be completed only by suggestions from Russian dictionary, and can be checking only by Russian dictionary etc.

Changes:

- Smart word dictionary handling
- Minor bug fixes and improvements

+Note: This plugin does not have dictionaries on board. You must install also plugins: "Spell Checker English Dictionary", "Spell Checker German Dictionary" or/and "Spell Checker Russian Dictionary" to enable spelling for language you need.

+

The word completion feature still beta, and we will be glad to any feedback about it. Also we have a tracker:

<http://code.google.com/p/idea-spellchecker/issues/list>

[ANN] Spell Checker 0.3.1

Thanks!

Ops, i'm sorry. 😊 Fixed

Guest 3. Re: **[ANN] Spell Cheker 0.3.1** Nov 18, 2007 2:20 PM

You should have said it was intentional. 😊

Guest 4. Re: **[ANN] Spell Cheker 0.3.1** Nov 19, 2007 5:22 PM

or call it Spell Czecher in honour of the JetBrains HQ country 😊
