'lo all, I just upgraded our server to the new Team City 4 release and am seeing some exceptions during an inspection run (from a pom file):

```
[20:48:35]: Analyzing code ... 2%[20:48:37]: [ 141367] ERROR - ex.GlobalInspectionContextImpl
-[20:48:37]: java.lang.IllegalStateException: @NotNull method com/intellij/extapi/psi/
StubBasedPsiElementBase.getRequiredStubOrPsiChild must not return null[20:48:37]: at
com.intellij.extapi.psi.StubBasedPsiElementBase.getRequiredStubOrPsiChild(StubBasedPsiElementBase.java:175)[20:48:37]:
at com.intellij.psi.impl.source.PsiMethodImpl.getParameterList(PsiMethodImpl.java:73)[20:48:37]:
at com.intellij.psi.impl.source.PsiMethodImpl.isVarArgs(PsiMethodImpl.java:77)[20:48:37]: at
com.intellij.psi.impl.java.stubs.JavaMethodElementType.createStub(JavaMethodElementType.java:7)
[20:48:37]: Analyzing code ... 3%
```

and

```
[20:48:45]: [ 149020] ERROR - ex.GlobalInspectionContextImpl -[20:48:45]:
java.util.NoSuchElementException[20:48:45]: at java.util.AbstractList$Itr.next(AbstractList.java:350)[20:48:45]:
at com.intellij.psi.impl.source.PsiFileImpl.a(PsiFileImpl.java:370)[20:48:45]:
at com.intellij.psi.impl.source.PsiFileImpl.a(PsiFileImpl.java:357)[20:48:45]:
at com.intellij.psi.impl.source.PsiFileImpl.a(PsiFileImpl.java:357)[20:48:45]:
at com.intellij.psi.impl.source.PsiFileImpl.a(PsiFileImpl.java:357)[20:48:45]: at
com.intellij.psi.impl.source.PsiFileImpl.loadTreeElement(PsiFileImpl.java:354)[20:48:45]: at
com.intellij.extapi.psi.StubBasedPsiElementBase.getNode(StubBasedPsiElementBase.java:54)[20:48:45]: at
com.intellij.psi.impl.source.PsiMethodImpl.getNode(PsiMethodImpl.java:20)
```

Is this a known issue at all? Shall I raise them in Jira?

Hmm, seriously considering reverting back to TC4 😞 Also seeing these exceptions during the inspections:

```
[2008-11-29 22:22:10,709] err - java.lang.ArrayStoreException
```

```
[2008-11-29 22:22:10,709] err - [ 350757] ERROR - ex.GlobalInspectionContextImpl -
IntelliJ IDEA 8.0 Build #9031
```

[2008-11-29 22:22:20,258] err - at com.intellij.codeInsight.daemon.impl.analysis.HighlightingSettingsPerFile.getHighlightingSettingForRoot

Not to mention seeing "GC overhead limit exceeded" now and then along with "too many open files". Maybe theres some tuning I can do..

Exceptions thrown doing inspections...
