Hy

How can I test TestFixtures with TestCase-Type in ReSharper?

This is a very usefull function in nUnit 2.5.

Best regards

Christoph

As fare as I can tell, ReSharper doesn't support NUnit 2.5. See:

<http://jetbrains.net/devnet/thread/282203?tstart=0>

<http://jetbrains.net/devnet/thread/277773?tstart=0>

<http://jetbrains.net/devnet/thread/281286?tstart=0>

When will this TestCase feature of NUnit 2.5 be supported? It is a very important feature, a Must! Are there any news on this subject?

Regards,

Sebastijan

Count me in for those who are desperately waiting for better NUnit 2.5 support.

Regards,

Andre
