Hi,

is there some support for Class selection ? In my case, the user must select an Java Class. I want to create an simple Dialog where the user can insert the Classname. Is there something already available (with autocompletion and other nice gimmicks 😊) ?

Thanx,

André

Hello Andre,

See the `TreeClassChooserFactory` class in the OpenAPI.

is there some support for Class selection ? In my case, the user must select an Java Class. I want to create an simple Dialog where the user can insert the Classname. Is there something already available (with autocompletion and other nice gimmicks) ?

Class selection dialog

That's it !!

Thanks,

André
