Hi. I'm trying to build a .Net Project with teamcity (4.5.5 (build 9103) - WindowsServer2003 x64).

As Build runner I tried sln2008 and MSBuild.

This Project works just fine in VisualStudio2008 but by the building in teamcity it always raise the following exception:

```
# C:\BuildAgent\work\CheckOutDir\custdev\Mobile_DotNet\Centrica\src\dev\Chimera\MobileClientTestApp
\TestDialog\TestDialogView.xaml(15, 14): error MC1000: Unknown build error, 'Method 'ShowStatusMessage' in
type 'com.sapcd.mobileclient.dialog.WPF.Controls.WPFStatusBar' from assembly 'SAPCD.MobileClient.Dialog.WPF,
Version=0.91.3692.24907, Culture=neutral, PublicKeyToken=null' does not have an implementation. Line 15 Position 14.# C:\BuildAgent
\work\CheckOutDir\custdev\Mobile_DotNet\Centrica\src\dev\Chimera\MobileLaptopClient\DataBrowser\DataBrowserView.xaml(15, 10):
error MC1000: Unknown build error, 'Method 'ShowStatusMessage' in type 'com.sapcd.mobileclient.dialog.WPF.Controls.WPFStatusBar'
from assembly 'SAPCD.MobileClient.Dialog.WPF, Version=0.91.3692.24907, Culture=neutral, PublicKeyToken=null' does
not have an implementation. Line 15 Position 10.# C:\BuildAgent\work\CheckOutDir\custdev\Mobile_DotNet\Centrica\src
\dev\Chimera\MobileLaptopClient\Info\InfoView.xaml(24, 10): error MC3074: The tag 'WPFStatusBar' does not exist in XML
namespace 'clr-namespace:com.sapcd.mobileclient.dialog.WPF.Controls;assembly=SAPCD.MobileClient.Dialog.WPF'. Line
24 Position 10.# C:\BuildAgent\work\CheckOutDir\custdev\Mobile_DotNet\Centrica\src\dev\Chimera\MobileLaptopClient\Main
\MobileLaptopMainDialogView.xaml(39, 14): error MC3074: The tag 'WPFStatusBar' does not exist in XML namespace 'clr-
namespace:com.sapcd.mobileclient.dialog.WPF.Controls;assembly=SAPCD.MobileClient.Dialog.WPF'. Line 39 Position
14.# C:\BuildAgent\work\CheckOutDir\custdev\Mobile_DotNet\Centrica\src\dev\Chimera\MobileLaptopClient\Settings
\Connection\SettingsView.xaml(85, 10): error MC3074: The tag 'WPFStatusBar' does not exist in XML namespace 'clr-
namespace:com.sapcd.mobileclient.dialog.WPF.Controls;assembly=SAPCD.MobileClient.Dialog.WPF'. Line 85 Position 10.
```

Has anyone any idea why this happens?

Thanks.

MC1000 error - MSBuild

Oct 4, 2004 1. **Re: MC1000 error - MSBuild** Mar 11, 2010 1:00 PM

Could you please check user account that is used to run build agent service.

Please check if the build run from msbuild.exe on the build agent machine under the same user account.

Do you have the same SDK's installed on the build agent machine?
